No blades mean the Dyson Air Multiplier fan is safe and easy to clean. It also has touch-lift, 90° oscillation and a dimmer-switch power control.

The Dyson Air Multiplier is priced at $299 for the 10-inch version and $329 for the 12-inch version.

"It uses a unique technology to multiply air 15 times, and through unprecedented advancements in airflow engineering, expels 119 gallons of smooth and uninterrupted air every second."
